Group Problems, Group Solutions, and the Clinical Skills Behind Them

Social Workers often face unique group challenges that necessitate interventions based in group theory...but can be at a loss as how to intervene. If you have been confronted with group work challenges and wonder how to address them, this workshop is for you.

This experiential and didactic workshop offers social workers, field instructors, mental health professionals, and students an opportunity to enhance their group work practice:

- Theory Based Analysis
- Clinical Intervention Skills
- Creative Ideas
- Active Participant Discussion

**Presenters: Lois A. Carey, Ph.D., LCSW
Deirdre G. Weliky, Ph.D., LCSW**
